

**Date of Issue:** XXXX, 2022 (*Monogram Program Effective Date: 6 months after publication*)

**Affected Publication:** API Specification 6DSS, *Specification for Subsea Pipeline Valves*, Third Edition, August 2017

## Addendum 2

**Foreword:** *The following paragraph shall be deleted:*

For API Monogram Program licensees and APIQR Program registrants, this standard shall become effective on the program date printed on the cover but may be used voluntarily from the date of publication.

**Section 1 (Scope):** *The section shall be changed to the following:*

This specification defines the requirements for the design, manufacturing, quality control, assembly, testing, and documentation of ball, check, gate, plug, and axial on-off valves for application in subsea pipeline systems for the petroleum and natural gas industries.

This specification applies to ASME Class 150, 300, 600, 900, 1500, and 2500 valves intended for use in subsea pipelines. Use of these valves for any other purpose is outside the scope of this document.

**Section 7.2:** *The first paragraph shall be changed to the following:*

Welding, including repair welding, of pressure-containing and pressure-controlling parts shall be performed in accordance with procedures qualified to ASME BPVC, Section IX and clauses 7.2 and 7.5 of this specification, or ISO 15607, ISO 15609, and ISO 15614-1.

**Annex A:** *Per API Monogram Program direction, this Annex shall be deleted and replaced with the following placeholder:*

### Annex A

**The information in this annex has been intentionally removed.  
See API Specification Q1 (Annex A), or the API website for information  
pertaining to the API Monogram Program and use of the API Monogram on  
applicable products.**
