

WI-1069: Review and harmonize NDE personnel certification requirement within all standards in SC5

Ballot 4187 Comment Resolution

Accepted Changes in **Gray-highlight**, **Final Updates in Blue**

9.16.2 NDE personnel

9.16.2.1 ISO9712, ISO11484 or ASNT-SNT-TC-1A or an equivalent **recognized industry standard** shall be the basis for the qualification of non-destructive inspection personnel (excluding visual inspection). Such personnel shall be re-qualified for any method previously qualified, if they have not performed non-destructive inspection in that method for a period exceeding 12 months. Manufacturer or inspection company shall have a training program and qualify and/or certify the NDE operator for the method, technique and equipment that is used in inspection specified in this standard.

9.16.2.2 Non-destructive inspection shall be conducted by level 1, 2 or 3 personnel, **using procedure approved by a level 3 personnel.**

9.16.2.3 Evaluation of indications shall be performed by level 2 or 3 personnel, or by level1 personnel under the supervision of level 2 or 3 personnel.
